

# British Journal of Oral Surgery

Index to volume 20 (1982)

## Subject index

- Abnormal temporomandibular joints  
— in fibrodysplasia ossificans progressiva 31
- Advance of the mandible  
Mechanisms of early skeletal relapse following surgical 175
- After bone grafting  
Prosthetic treatment of patients — procedures 45
- Anaesthetic management of acromegalic patients  
The medical and — undergoing maxillo-facial surgery 77
- Ankylosis  
Unilateral condylar hypoplasia with —: radiographic findings 1
- Antral mass  
An unusual 147
- Aspergillosis mycetoma  
— of the maxillary antrum 299
- Basal cell carcinoma of lip  
— mucosa 248
- Biopsy excision  
Early oral cancer: treatment by 234
- Book reviews 74, 225
- Bronchogenic carcinoma  
Condylar metastasis from a 39
- Buccal sulcus  
A rare case of a diverticulum arising from the right — which extended into the neck — a case report 53
- Caffey's disease 281
- Calcifying odontogenic cyst  
The —: a problem of preoperative diagnosis 203
- Central cell granuloma  
The —, a case of recurrence after 22 years 109
- Cervical vertebrae  
Radiographic appearance of the — in normal and abnormal development 264
- Chronic osteomyelitis  
— of the mandible in adults; a clinical study of 34 cases 58
- Condylar metastasis  
— from a bronchogenic carcinoma 39
- Cyclic neutropenia  
Oral manifestations in 96
- Dautrey procedure  
Recurrent dislocation of the mandible: treatment of ten cases by the 14
- Dental extraction analgesia:  
Post anaesthetic — a comparison of paracetamol, codeine, caffeine (solpadeine) and diflunisal (dolobid)
- Detached bronchogenic cyst  
A — occurring in the tongue of a neonate 288
- Development of  
— the human temporomandibular joint 217
- Diverticulum  
A rare case of a — arising from the right buccal sulcus which extended into the neck — a case report 53
- Down Surgical Prize 1980 229
- Early oral cancer  
—: treatment by biopsy excision 234
- Early skeletal relapse  
Mechanisms of — following surgical advance of the mandible 175
- Extra-articular ankylosis  
— in fibrodysplasia ossificans progressiva 117
- Facial injuries  
Head and — after low-speed motor-cycle accidents 183
- Fibrodysplasia ossificans progressiva  
Abnormal temporomandibular joints in 31
- Fibrodysplasia ossificans progressiva  
Extra-articular ankylosis in 117
- Haemophilus influenzae pyarthrosis  
— in a young adult with subsequent temporomandibular joint involvement 260
- Inappropriate antidiuretic hormone  
The syndrome of — secretion 256
- Intra-oral basal cell carcinoma 239
- Irrigation device  
An — for the surgical handpiece 304
- Kelsey Fry bone awls  
Modifications to the — for use in circum-palatal wiring 148

- Lingual flap retractor  
— for surgery in third molar area 151
- Lipoblastomatosis of the cheek  
—: a case report 135
- Low-speed motor-cycle accidents  
Head and facial injuries after 183
- Modifications  
— To the Kelsey Fry bone awls for use in circumalatal wiring 148
- Multiple odontogenic keratocysts  
— in a case of the Noonan syndrome 213
- Non-healing midline granuloma 102
- Noonan syndrome  
Multiple odontogenic keratocysts in a case of the 213
- Notices 75, 153, 231, 309
- Nystatin-resistance of *Candida albicans*  
— isolates from two cases of oral candidiasis 294
- Obituary 307
- Oral angiomyoma  
—: a case report 142
- Oral manifestations  
— in cyclic neutropenia 96
- Orofacial changes  
— in systemic sclerosis — report of a case of resorption of mandibular angles and zygomatic arches 129
- Post  
— anaesthetic dental extraction analgesia: a comparison of paracetamol, codeine, caffeine (solpadeine) and diflunisal (dolobid) 275
- Prosthetic treatment  
— of patients after bone grafting procedures 45
- Radiographic appearance  
— of the cervical vertebrae in normal and abnormal development 264
- Recurrence of a myxoma  
— in a costochondral graft 63
- Recurrent dislocation of the mandible  
—: treatment of ten cases by the Dautray procedure 14
- Respiratory/cardiac arrest complicating intermaxillary fixation 192
- Sandwich mandibular osteotomy  
A —: a preliminary report 155
- Sandwich mandibular osteotomy  
A —: a progress report 168
- Spontaneous fracture  
of an atrophic edentulous mandible treated without fixation 22
- Subcutaneous emphysema 200
- Syphilitic osteomyelitis  
— of the mandible 122
- Systemic sclerosis  
Orofacial changes in — report of a case of resorption of mandibular angles and zygomatic arches 129
- Temporomandibular joint  
Development of the human 217
- Tissue adhesive  
The use of butyle cyanoacrylate as a — in maxillo-facial and cranio-facial surgery 84
- Traumatic myositis ossificans 196
- Unilateral condylar hypoplasia  
— with ankylosis: radiographic findings 1
- Use of butyl cyanoacrylate  
The — as a tissue adhesive in maxillo-facial and cranio-facial surgery 84
